

GLOBAL Bake

Nutritional Analysis

In conjunction with Salamanda Food Safety Managers*, GlobalBake has a nutritional analysis module. Using the recipe system and a series of constants, the nutritional analysis of a finished product is easily obtained.

Features

- ?? Entry of nutritional information on ingredients.
- ?? Management entries on recipe.
- ?? Establish system constants in company details (unit and base size e.g. 100 gm).
- ?? Finished product has serving size and displays the nutritional analysis.
- ?? Direct printing of nutritional worksheet showing breakdown by ingredient
- ?? Direct printing of product specification.

Benefits

- ?? Easy to set up and maintain using existing recipe structure.
- ?? Designed in conjunction with qualified food consultants to meet Australian and NZ requirements.
- ?? Simple report options showing breakdown, handling, storage allergens etc.

Requirements

- ?? GlobalBake with a recipe structure set up.
